MOBILE APPLICATIONS - \$4.00 / MONTH:

Both mobile apps are FREE to download from your favorite app store. The \$4 monthly fee is to sync your WRT Cloud Voice service - allowing you to make or receive phone calls from any device

HOMEXTEND - make/receive calls, manage your calling features & view call history using your home phone number (or single line) via your cell phone.

NCOMMAND - conduct business anytime, anywhere and on any device. Simply download to your device, launch and go to make/receive business calls.

WHAT IS "THE CLOUD"?

The cloud refers to services that run on the internet, instead of locally on your computer or in this case on our phone switching network. Unlike the name implies, your files aren't floating around in space, they are secure and saved on physical servers which are maintained by WRT.

FAQS:

WHAT IF THE POWER GOES OUT?

WRT provides a battery back-up for all voice services - internet cloud-based or traditional. You will have approximately 8 hours of voice service during a power outage. Additional batteries are available for \$2/month to extend hours.

DO I STILL EARN WRT CO-OP CASH?

Cloud Voice is a service provided by WRT, thus you still earn capital credits / CO-OP CASH for every dollar spent with WRT!

DO I GET TO KEEP MY PHONE NUMBER?

Yes, WRT members can keep and use their same phone number(s). They are ported over to the new service, which is scheduled at your convenience and occurs seamlessly. The only changes will be how you utilize your calling features.

DO I NEED TO HAVE WRT INTERNET SERVICE?

WRT Cloud Voice service works by using the internet to access this cloud-based service. Members will need to have a WRT internet connection with speeds of 100x10 or greater. If you have multiple users and multiple devices, we recommend WRT's 500x500 or 1GIGx1GIG speeds to reduce any issues.

WRT

CLOUD VOICE

**SAME CALLS.
SMARTER SERVICE!**
